**ClaimDOC is always available as your first point of contact.**

The Provider Directory is not a network. With an open access medical plan, you never have to worry about providers being out of network or navigating your plan alone. If you don't see your provider of choice in the search results, please submit a Provider Nomination. Although it's not a requirement to receive care, submitting a nomination allows a Member Advocate to introduce your medical plan and share a copy of your ID card with the provider.
